Draw dots in the box to show what's missing.

3 rows of 3 dots + = 4 rows of 3 dots

Draw dots in the box to show what's missing.

4 rows of 3 dots - = 2 rows of 3 dots

Draw dots in the box to show what's missing.

5 dots + = 6 dots

Draw dots in the box to show what's missing.

6 dots - = 3 dots

Draw dots in the box to show what's missing.

4 rows of 2 dots + = 5 rows of 3 dots

Draw dots in the box to show what's missing.

A large empty square box with an orange border, intended for drawing dots to represent a missing number in an equation.

Draw dots in the box to show what's missing.

A large empty square box with an orange border, intended for drawing dots to represent a missing number in an equation.

Draw dots in the box to show what's missing.

A large empty square box with an orange border, intended for drawing dots to represent a missing number in an equation.

Draw dots in the box to show what's missing.

A large empty square box with an orange border, intended for drawing dots to represent a missing number in an equation.

Draw dots in the box to show what's missing.

A large empty square box with an orange border, intended for drawing dots to represent a missing number in an equation.

Name: _____ Date: _____

Can you find the missing numbers in these number sentences? Remember to check if you have to add or take away. Use counters if you need to.

$16 + \square = 19$

$20 - \square = 17$

$5 - \square = 0$

$3 + \square = 18$

$12 + \square = 15$

$6 - \square = 3$

$14 - \square = 12$

$8 + \square = 16$

$4 + \square = 4$

$9 - \square = 1$

$20 - \square = 12$

$4 + \square = 20$

$8 + \square = 11$

$18 - \square = 13$

$15 - \square = 15$

$13 + \square = 19$

$15 = \square - 5$

$12 = \square + 6$

$8 = \square - 2$

$10 = \square + 3$

$3 + \square = 8$

$\square + 3 = 8$

5

$2 + 5 = \square$

$\square = 2 + 5$

7

$10 + \square = 13$

$\square + 10 = 13$

3

$18 + 2 = \square$

$2 + 18 = \square$

20

$\square = 2 + 17$

$\square = 17 + 2$

19

$9 = 13 - \square$

$13 - \square = 9$

4

$10 = 16 - \square$

$16 - \square = 10$

6

$12 + 6 = \square$

$\square = 12 + 6$

18

$1 = \square - 2$

$\square - 2 = 1$

3

$3 = \square - 7$

$\square - 7 = 3$

10

$6 + \square = 9$

$\square + 6 = 9$

3

$8 + 0 = \square$

$\square = 0 + 8$

8

$12 + \square = 15$

$\square + 12 = 15$

3

$7 + 5 = \square$

$5 + 7 = \square$

12

$\square = 1 + 9$

$\square = 9 + 1$

10

$8 = 20 - \square$

$20 - \square = 8$

12

$6 = 8 - \square$

$8 - \square = 6$

2

$17 + 3 = \square$

$\square = 3 + 17$

20

$9 = \square - 4$

$\square - 4 = 9$

13

$7 = \square - 0$

$\square - 0 = 7$

7

Name: _____ Date: _____

Answer the questions and crack the code to find the hidden message.

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------	----------------------	----------------------	----------------------

<input type="text" value="15"/>	<input type="text" value="10"/>	<input type="text" value="15"/>	<input type="text" value="6"/>	<input type="text" value="21"/>	<input type="text" value="16"/>	<input type="text" value="19"/>
---------------------------------	---------------------------------	---------------------------------	--------------------------------	---------------------------------	---------------------------------	---------------------------------

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------	----------------------	----------------------
