

WE CAN ALL HELP TO STOP THE SPREAD OF GERMS

Physical Distancing

PHYSICAL DISTANCING

We are keeping our distance from others right now.

It isn't forever, but this shows you how.

We put an imaginary bubble on the ground.

If we don't get too close, the germs won't stick around.

PHYSICAL DISTANCING

We can wave to our friends.

But we shouldn't hug or high five anyone who doesn't live with us.

STAYING SAFE

**Wash your hands
regularly with soap**
