

## Alternative Home Learning Activities

I know home learning can be hard at times - we all have those days - even me and teaching is my job! Therefore, when the children are losing concentration, interest or they've simply had enough of learning Maths and English, here are some ideas for some fun activities that you can do with your child. They will be having fun, you will be having fun with them and they're learning at the same time! I would love to see all your amazing pictures! These are activities I have done with my own children and we have all had lots of fun. I hope you all do too!

- Build a den – unleash the inner child!
- Paper obstacle course – string, paper or something suitable across the room -try and get to the other side without ripping it! – Unleash the competitive streak!
- Create pebble pictures (<https://www.pinterest.co.uk/lewishugo/pebble-picture-ideas/>) - Unleash the inner artist!
  - Make a bird feeder
  - Create a treasure or nature hunt for your family
  - Shadow drawing (<https://kidsactivitiesblog.com/137133/how-to-make-shadow-art-with-kids/>)
    - Learn to juggle!
  - Look for shapes in the clouds – I love doing this! Make up names or a story for each.
    - Stargazing – learn about the constellations
  - Make a nature video – become the next David Attenborough!
- Fill a small box with as many different things as you can. Challenge another family member. Who can fill it with the most objects and/or most unusual objects?
