

Tuesday 5th January 2021

Hello everybody,

We hope you've had a lovely Christmas and have had lots of fun at home with your family. We are going to put your home learning for this week on this page daily. So below, you will find the tasks you need to complete for Tuesday. We will add the next day's jobs the night before you need to do them. If you need any help please email us directly – or ring school who will give us a message. You don't need to send us your work, just bring it all with you when you come back to school. Keep smiling everyone.

Mrs Salkeld and Miss Sunter

Maths

- Choose an activity from Daily 10 – just as we do at school. You can choose if you do a level 2 or level 3 activity. Remember to challenge yourself! www.topmarks.co.uk/maths-games/daily10
- Your maths task today is all about telling the time. Go through the slides first to practise telling the time and then complete the one of the time worksheets.

3A – mild

3B – medium

3C - spicy

- **Mathletics** tasks – everyone has been assigned **new** tasks relating to Time to be completed today.

English

I really want to find out about what you have been doing in the Christmas holidays! Write a recount about one day of your holidays. Remember a recount has to be in time order using time

words! Here is a checklist of other things to think about when you are doing your recount:

- **Write in full sentences using a capital letter at the start of your sentences and a full stop, exclamation mark or question mark at the end of your sentences.**
- **Use conjunctions to extend some of your sentence but remember to make some of your sentences short and snappy and others longer to make your writing interesting.**
- **Use strong adjectives and adverbs in your recount.**
- **Remember to write in paragraphs**
- **Can you include a simile for added effect?**

Reading

Read the 60 Second Read – Ozma and the Little Wizard and answer the questions.

Remember you can find books to read on Fiction Express – my recommendation for this week is The Dragon Inside (Level 1)

Geography

Our Geography topic this term is Deserts. Today you will be finding out what a desert is and where they are in the world. Look at the slides and then complete one of the worksheets

1A – mild

1B – medium

1C – spicy
